Subject Specific Vocabulary	
Key word	Definition
human	We are called humans and come from the family of animals called mammals
mammals	Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
body	Made up of head, hair, eyes, ears, eyebrows, nose, mouth, chin, neck, shoulder, chest, elbow, arm, wrist, hand fingers, tummy, knee, leg, ankle, foot, toes
sight	Your eyes let you see all the things around you.
hearing	Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.
touch	Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!
taste	Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't.
smell	You smell using your nose. Your nose can tell if things smell nice or not nice.
